

Global International Fertilizers Industry Co.  
العالمية الدولية لصناعة الأسمدة

# About Us

We started with **ADFERT** UAE in 1995, and with our belief in continuous development, we started building our factory in Jordan (**INFERT** Jordan) in 2016, which was completed with the production of the first export batch in 2018.

Since then, our export network has expanded to more than 20 countries in Europe, North Africa, East Asia and the Middle East. Our strategy focuses on expanding into new markets as sales volume increases in existing markets.

## **Our Vision**

“Searching for innovative solutions that reduce the climate impact on agriculture”

## **Our Mission**

“Commitment to Quality, Environment and Safety”

## **Our Goal**

“Striving to provide specialized fertilizers that meet the diverse needs of crops.”

# Who is INFERT ?

In **INFERT** Jordan, we have over 25 years of experience producing NPK fertilizers of various kinds and of the highest quality.

we has a long-term vision of contributing to the development of the NPK fertilizer industry in the MENA region, with a commitment to provide high-quality products that boost agricultural production.

# Our Product

## Water Soluble

These fertilizers are fully water-soluble, making them ideal for modern irrigation systems, they provide nutrients quickly and efficiently, free of heavy impurities.

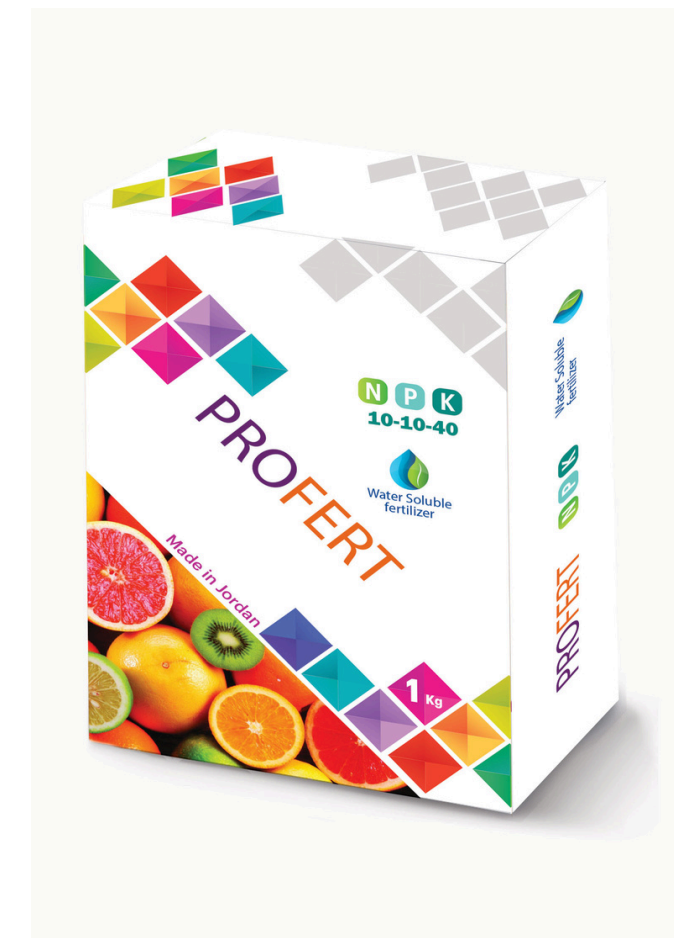

## Liquid

A diverse group of fertilizers providing specialized solutions to boost plant productivity

## Suspension

Highly concentrated formulations suitable for modern irrigation systems, enhancing plant nutrition.

## Foliar

Applied directly to plant leaves, ensuring rapid nutrient absorption, especially in unsuitable soil conditions.

# Our Product

## Granular

These fertilizers are fully water-soluble, making them ideal for modern irrigation systems, they provide nutrients quickly and efficiently, free of heavy impurities.

## Microelements

Provide essential trace elements like iron, zinc, and manganese, enhancing plant health and correcting micronutrient deficiencies.

## Special Fertilizers

Highly concentrated formulations suitable for modern irrigation systems, enhancing plant nutrition.

# Who is **ADFERT** ?

**ADFERT** is outgrowth of Adfert Abu-Dhabi company in Egypt, we committed to providing agricultural solutions to support sustainable farming and enhance crop productivity.

With years of experience in the industry, **ADFERT** specializes in the production of a wide range of NPK fertilizers. We ensure that every product adhere to the highest international quality standards.

# Our Main Product

## Himalaya

Is free of urea content making it the most efficient Fertilizers. Optimize nutrition of different crops under different growth stages in all growing and irrigation systems.

## SULOTASTE

Fertilizers Characterized with acidic reaction. Develop the chlorophyll photosynthesis in the rapid growth phase of the crop.

## INTURO Fert

Ideal fertilizer for salt sensitive crops and for crops required high amount of nutrients during certain growth stage.

# Our Product

## Foliar Plus

NPK foliar fertilizers, contains the most pure nutrients, high concentration of Trace Elements chelated with EDTA as well as natural additives.

## Fullcare

Chelated water soluble trace element fertilizers, high purity, high quality products.

## Suspension

NPK Suspension fertilizer is made under the supervision of expert professionals and therefore there are minimal chances of any flaws.

## MICROFEED

liquid fertilizers that include macronutrient NPK, free of chlorine compound, sodium and heavy metals.

# Where are our centers established?

OMAN

# Laboratory & Quality

**Quality** is at the core of everything we do, We ensure that:

- Commitment to Quality
- Premium Ingredients
- Advanced Technology
- Strict Quality Control

**The laboratory** is the backbone of our innovation and quality assurance.

- Expert Team and agronomists developing specialized formulations.
- Ensuring products exceed global standards.
- Monitoring performance and adapting to modern agriculture needs.

# Environmental Responsibility

**Over the next three years,** our commitment to environmental responsibility will focus on tangible actions to safeguard the planet, We aim to :

- **Minimizing Emissions:** Using clean technologies and renewable energy.
- **Reduce & Recycle:** Cutting waste and enhancing recycling.
- **Energy Efficiency:** Optimizing consumption across operations.
- **Sustainable Growth:** Balancing eco-responsibility with productivity.
- **Lasting Impact:** Supporting a greener, sustainable future.

# Certificates

Certificate JO23/00000193

The management system of

Global International Fertilizers Industry

Office No.405, 4th Floor, Bldg.225, Al-Madinah Al-Munawara Street, Amman, Jordan

has been assessed and certified as meeting the requirements of

ISO 45001:2018

For the following activities

Manufactures Fertilizers and Growth Regulators.

This certificate is valid from 06 September 2023 until 05 September 2026 and remains valid subject to satisfactory surveillance audits.

Issue 1. Certified since 06 September 2023

# CERTIFICATE

## OF COMPLIANCE

# CE

We hereby declare that the technical file of product complied with the requirement of Fertilising Products Regulation EN 2019/1009

## Global International Fertilizer Co.

(INFERT)

**Products:**

**Products Type/Model:** As per appendix page-I

**Address:**

Fertilising Products (Water-Soluble Fertilisers, And Suspension Fertilisers)

-NPK, GROWMAX.  
-NPK, TOPFERT.

Office No.405, 4th Floor, Bldg.225, Al-Madinah Al-Munawara St., Amman-JORDAN

**The Manufacturer's Technical Documentation as required for Regulation (EU) 2019/1009 on EU Fertilising Products.**

Any significant changes in design or construction of the product, not agreed upon by us, this declaration will lose its validity.

**This certificate is issued under the following conditions:**

1. It applies only to the quality system maintained in the manufacture of above referenced models and it does not substitute the design or type-examination procedures, if requested.
2. The certificate remains valid until the manufacturing conditions or the quality systems are changed.
3. The certificate validity is conditioned by positive results or surveillance audits.

The CE mark as shown above can be used, under the responsibility of the manufacturer, after completion of an EC Declaration of conformity and compliance with all relevant EC Directives. The statement is based on a single evaluation of one sample of above mentioned product. It does not imply an assessment of the whole production.
